

INSPIRING CREATIVE ROBOTICS

Community and Learning Manager

BirdBrain Technologies is looking for a full-time Community and Learning Manager to build awareness and inspire our community of educators. We're looking for someone passionate and energetic, who is a creative and empathic communicator, committed to our mission of inspiring deep and joyful learning in all students through creative robotics.

What You'll Do

- Seek out opportunities to evangelize about BirdBrain products and resources
- Run innovative and interactive workshops
- Create and nurture relationships with influencers and decision-makers in education, as well as in the media
- Produce original, creative, and inspiring social content
- Grow community groups and ambassador programs
- Uplift users by sharing community-generated content
- Communicate via many avenues including newsletters, blog posts, and podcasts
- Travel to in-person events as a company representative once it is safe to do so (travel will not exceed 25% when averaged over a year)

Things We're Looking For

- Teaching experience in robotics, computer science, or STEAM
- Fluency in advanced blocks-based coding
- Experience with physical computing (e.g. robotics platforms, micro:bit)
- Ability to inspire and train educators on new educational tools
- Engaging and accessible writing style
- Experience with social media platforms and tools
- Empathy and understanding of the challenges teachers face when trying something new in the classroom
- Ability to represent our products in the overall education ecosystem, including how to integrate with core curriculum and align to standards
- Comfort thinking on your feet and working in a fast-moving environment
- Willingness to flex into roles and responsibilities outside of this job description
- Eagerness to travel, when travel is safe
- Skills in working remotely and asynchronously

INSPIRING CREATIVE ROBOTICS

Bonus

- Experience with our products
- Experience with text-based coding
- Experience creating digital content
- Located in the Pittsburgh area

Please Include in Your Application

- What educational technology products you've used and your familiarity with them
- If you are an ambassador for any edtech companies
- Your social handles, if you have any
- Education articles, blog posts, conference talks, etc. you've created

What BirdBrain Offers

- The chance to make education more joyful and creative for students and educators around the globe
- A close-knit, remote team of caring, collaborative, and passionate co-workers
- In-person lunch and coffee "meetings" multiple times a month
- Generous vacation and a company culture which encourages you to use it (4 weeks paid vacation and 9 company holidays)
- Medical, dental, vision, life, and short-term disability insurance
- 401(k) match (4%)

About Us

Birdbrain Technologies is a small robotics company that spun out of CMU's Robotics Institute. Our mission is to inspire deep and joyful learning in all students through creative robotics. We are passionate about expanding access to computer science, computational thinking, and STEAM to students across the globe, and the world is noticing. BirdBrain was awarded the [Inner City 100 / FedEx Champion of Global Entrepreneurship](#) in 2019 and our founder and CEO, Dr. Tom Lauwers, was the Small Business Administration's 2020 [small business person of the year for Western Pennsylvania](#).

At a small company, life is always varied and interesting; no two days are alike, and we think that is a good thing! To flourish at BirdBrain requires flexibility and the ability to work cross-functionally with a small team. A successful candidate will be someone interested in both making use of their skills and developing new ones.

If you are looking to join a passionate team and are excited about working on products that are changing education & inspiring kids, send your resume to aparna@birdbraintechnologies.com. We look forward to hearing from you!
